

MUSKU NISHITHA

Senior Software Developer — React.js | React Native | Next.js | MERN Stack

Hyderabad, India | +91 7416264657 | muskunishitha2003@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Senior Full Stack Developer with 2+ years of experience architecting and delivering production-grade web and mobile applications across e-commerce, enterprise, and healthcare platforms using React.js, React Native, Next.js, and Node.js. Proven track record of owning the full Software Development Life Cycle (SDLC) — from API design and database architecture to CI/CD deployment and performance optimization — while collaborating in Agile/Scrum teams. Skilled in RESTful API design, JWT authentication, third-party integrations (Razorpay, Firebase, Google Maps, OpenAI API), unit testing, debugging, and scalable system design, with hands-on experience improving backend response times, application uptime, and cross-platform performance.

CORE COMPETENCIES

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, Java (Basics)

Frontend & Mobile: React.js, React Native, Next.js, Redux Toolkit, Flutter, Tailwind CSS, Bootstrap, Ant Design, Material UI (MUI), Framer Motion, Responsive & Cross-Platform UI Development

Backend & APIs: Node.js, Express.js, RESTful API Design, GraphQL (familiar), JWT Authentication, API Integration, Microservices Fundamentals

AI / LLM: OpenAI API Integration, AI Chatbot Development, Prompt Engineering, AI-Powered Search

Database & Cloud: MongoDB, Redis, Firebase (Firestore, Realtime DB, Cloud Messaging, Authentication, OTP)

DevOps & Deployment: CI/CD (GitHub Actions), Nginx (Load Balancing), PM2 (Clustering), Docker (Basics), Vercel, Firebase Hosting, Hostinger, Netlify

Testing & Quality: Unit Testing, Debugging, Code Review, Version Control (Git), Postman, Lighthouse, Performance Optimization

Payments & Security: Razorpay, JWT Authentication, Firebase Authentication, OTP Verification, Role-Based Access Control (RBAC)

Tools & Methodology: Git, GitHub, Google Maps API, Postman, Google Analytics, Vite, Agile/Scrum, SDLC, Cross-Functional Collaboration, Problem Solving

WORK EXPERIENCE

Senior Software Developer — Dexterous Technology, Hyderabad

Jun 2024 – Present

- **Architected and shipped** 3+ production web and mobile applications using React.js, React Native, and Next.js, integrating Firebase Cloud Messaging and Google Maps API to expand product reach across 2 platforms.
- **Optimized and streamlined** RESTful APIs built with Node.js and Express.js, reducing backend response time by 40% for 1,000+ daily active users.
- **Engineered** JWT-based authentication and file management systems across 3+ production applications, eliminating unauthorized-access incidents and strengthening data security for 1,000+ daily active users.
- **Enhanced** responsive, high-performance UIs with React.js, React Native, Next.js, and Redux Toolkit, cutting average page load time by 30% across 3+ applications.
- **Led** cross-functional collaboration in an Agile/Scrum environment, sustaining 95%+ on-time feature delivery across 10+ sprints.
- **Debugged and resolved** 20+ production issues through systematic testing and code review, reducing recurring defects by 35% and improving application stability.

Software Development Intern — Dexterous Technology, Hyderabad

Apr 2024 – Jun 2024

- **Delivered** 5+ responsive frontend components using HTML, CSS, and JavaScript, reducing UI inconsistencies by 25%.
- **Supported** API integration and backend development with Node.js and Express.js across 10+ REST endpoints.
- **Identified and fixed** 15+ UI and functional issues, improving application stability by 30%.
- **Contributed** to full-stack feature development within Agile workflows, participating in 2 sprint cycles and daily stand-ups.

PROJECT WORK

EWSshopping — Multi-Vendor E-commerce Platform

Jun 2024 – Present

- **Architected** a full-scale multi-vendor e-commerce platform spanning Customer Website, Admin Panel, Seller Panel, and Mobile App.
- **Expanded** core commerce modules — product, category, order, coupon, wallet, and inventory management — across all three web panels.
- **Integrated** Razorpay payments, Firebase OTP authentication, and AI-powered product search.
- **Scaled** the cross-platform mobile app with React Native to serve 28,000+ users across 4,000+ vendors.
- **Improved** performance and scalability with Redis caching, PM2 clustering, and Nginx load balancing, achieving 99.9% uptime; automated deployments with CI/CD (GitHub Actions).

Tech Stack: *Next.js, React.js (Vite), React Native, Node.js, Express.js, MongoDB, Redis, Tailwind CSS, Firebase, Razorpay, Git*

KiranaWorld — Grocery E-commerce Platform

Apr 2025 – Present

- **Launched** a grocery e-commerce platform supporting online ordering of fruits, vegetables, and household essentials for 1,000+ customers.
- **Implemented** a responsive customer website with React.js (Vite), supporting a smooth browsing and ordering experience for 1,000+ customers.
- **Configured** an Admin Panel with React.js (Vite) and Tailwind CSS for inventory and order management.
- **Deployed** a cross-platform mobile app with React Native, supporting a smooth checkout flow.

Tech Stack: *React.js (Vite), React Native, Node.js, Express.js, MongoDB, Tailwind CSS, Git*

Primera Dental Hub — Dental E-commerce Platform

Jul 2025 – Present

- **Created** a dental e-commerce platform for products, instruments, and equipment.
- **Built** the Next.js customer website, improving page performance and SEO rankings for organic discovery.
- **Configured** Firebase Authentication for secure login, supporting 500+ registered users.
- **Shipped** cross-platform mobile apps for Customer and Service roles using React Native, serving 200+ active users.
- **Added** SMS and email notifications for orders and authentication, along with usage-analytics dashboards.

Tech Stack: *Next.js, React.js (Vite), React Native, Node.js, Express.js, MongoDB, Firebase, Tailwind CSS, Git*

POT Dashboard — Construction Resource Management System

Nov 2025 – Jan 2026

- **Designed** a mobile dashboard visualizing project metrics — cost, manpower, and progress — across 20+ construction sites.
- **Generated** dynamic charts and graphs for real-time insights into site performance.

Tech Stack: *React Native, Redux Toolkit, Chart Libraries*

Personal Developer Portfolio

Ongoing

- **Built** a personal developer portfolio with Next.js, Tailwind CSS, and Framer Motion, featuring an OpenAI-powered chatbot for interactive Q&A about skills and experience.

Tech Stack: *Next.js, Tailwind CSS, Framer Motion, OpenAI API, Vercel — <https://muskunishitha.vercel.app/>*

EDUCATION

Bachelor of Business Administration (BBA) — A.V. College of Arts, Science & Commerce, Hyderabad

Aug 2020 – Jun 2023 | CGPA: 8.42 / 10

Transitioned into software development through an intensive full-stack certification program, complementing business fundamentals with hands-on engineering training.

Intermediate (MPC) — Sri Aryabhata Junior College, Kamareddy

Aug 2018 – Jun 2020 | CGPA: 9.2 / 10

CERTIFICATIONS

- **Certified Full Stack Java Developer** — JSpiders, Punjagutta (Aug 2023 – Apr 2024)

ACHIEVEMENTS

- **Recognized as Best Performer of the Month** for delivering multiple projects ahead of schedule.
